### ADDENDUM: MINIMUM ALLOWABLE CLEARANCES FOR DFS HIGH WALL INDOOR UNITS AND DFS OUTDOOR UNITS

**Document #:** TB-DLS-09192022

**Date Issued:** 09/19/2022

**Author:** Justin Sylsberry

**Reference:** Installation clearances

**Product Group:** Ductless Indoor and Outdoor Units

**Models Affected:** All

**Serial Number Range:** All

**Summary:**

We are amending our current literature which, in the past, has shown “Recommended” Clearances to show “Minimum Allowable Clearances.”

**Solution:**

This Addendum will serve notice that GREE will warrant all GREE Branded DFS product installed that adhere to the “Minimal Allowable Clearances” shown in the attachment to this technical bulletin. Manuals and Submittals are in the process of being revised to show these “Minimum Allowable Clearances.” Please use this Technical Bulletin and its attachment for verification to authorities should the need arise.
