

Product Bulletin

Documentation for NEEP / AHRI Rebates

Document #: PB-ALL-03242022

Date Issued: 03/24/2022

Author: Justin Sylsberry

Reference: Certified Product Ratings

Product Group: ALL

Models Affected: ALL

Serial Number Range: ALL

Summary:

Some customers have mistakenly submitted extended ratings tables found on Gree submittals for rebates requiring NEEP or AHRI certificates. The extended ratings tables are not acceptable due to testing conditions such as temperatures, CFM, and compressor speeds for these rebates being different from the testing conditions used for the extended ratings tables.

Solution:

When filing for rebates, customers must obtain and submit copies of the NEEP or AHRI certificates for the product(s) they have installed (whichever document the program requires).

For AHRI certificates, please go to www.ahridirectory.org

For NEEP certificates, please go to <https://ashp.neep.org/>
