

Technical Bulletin

Use of Filter Dryers with FLEXX Outdoor Units

Document #: TB-FLX-2142022

Date Issued: February 12, 2022

Author: Justin Sylsberry

Reference: Installation Accessories

Product Group: FLEXX

Models Affected: FLEXX36HP230V1AO, FLEXX60HP230V1AO

Serial Number Range: ALL

Summary:

This bulletin is being released in response to customer inquiries regarding installation of filter dryers on FLEXX outdoor equipment.

When following proper installation procedures as outlined in the installation manual, the addition of a filter dryer is **NOT** required. Best practices such as brazing with nitrogen and triple evacuation will help prevent infiltration of debris and moisture in the system.
