

Submittal Data: XK76 XK76 Wired Programmable Controller for Ductfree Split Systems

Job Name	Location	Date
Purchaser	Engineer	
Submitted To	For	<input type="checkbox"/> Reference <input type="checkbox"/> Approval <input type="checkbox"/> Construction
Unit Designation	Schedule No.	

GENERAL FEATURES

- Tactile feedback keypad
- Easy setup and 7 day programming
- Sleek thin design blends into any décor
- Reaches up to 26 feet.
- Convenient LCD display backlighting
- Ready to use cable included.
- No Batteries Required

Compatible with the following Models:

Indoor Models	Model Numbers
Terra	TERRAxHP230V1xH
Vireo	VIRxxHP230VAH
Vireo+	VIRxxHP230VBH
Neo	NEOxxHP230VxH
Livo	LIVSxxHP230VAH
Livo+	LIVSxxHP230VBH

XK76 Wired Programmable Controller allows fast & easy access to a large number. The following is a list of typical features and functions supported by the X76 wired controller:

Note: Some indoor models may not support specific system features or functions.

Always refer to the indoor unit Owner's Manual for a complete list of feature and functions.

On/Off - The On/Off button allows you to start and stop the system.

Operating Mode - Allows users to select an operating mode (i.e. Cooling, Heating, Dry, and Fan Only).

Fan Speed -The indoor fan (i.e. High, Medium, Low & Auto) can be adjusted for peak comfort and quietness.

Room Setpoint – Adjust room setpoint temperature between 61 deg F to 86 deg F (16 ~ 30°C range).

Timer Mode - Program a One time period (i.e. 0.5-24 hr.) to which the system will turn ON or OFF.

Daily Schedule - Allows 8 programmable time/temperature segments per day.

Weekly Schedule - Allows 7-day programming with 8 time/temperature segments per day.

Freeze Guard - Room Freeze Guard protection will maintain room temperature above 46° F.

Sleep Mode – Automatically adjust room temperature during your sleep time (i.e. 0.5-24 hr. range).

Turbo Mode – Turbo will force system to run at higher speeds to reach the desired room temperature faster.

X-Fan Mode - Removes moisture build up on coil when the system is turned OFF to prevent mold and mildew.

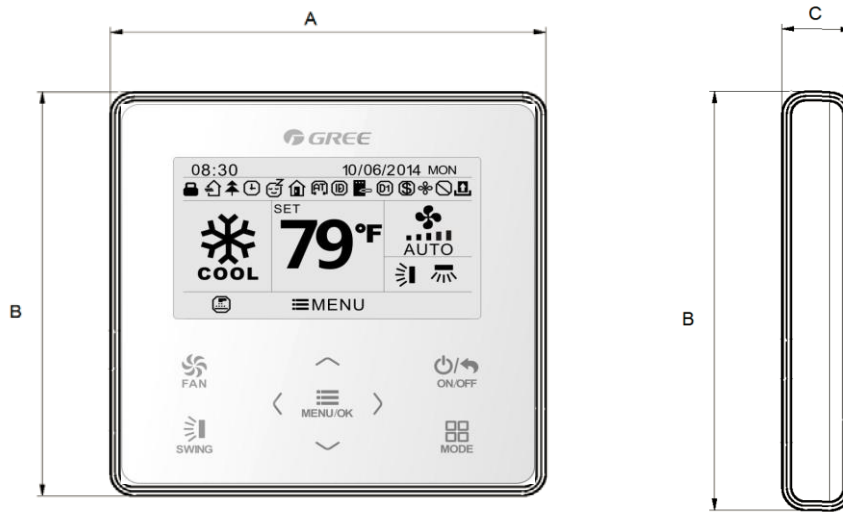

Privacy Lock - Privacy Lock to prevent unauthorized access to the controls and tampering with system settings.

Service Codes - Automatically display service codes generated by the system.
